*Special Note About Color Inks *Simple Spot Color vs. Full-Color*

There seems to be some confusion as to the difference between "Simple Spot Color" and "Full-color" ink printing. Simple spot color is usually black ink plus another color with some of the text or graphics in one color, and the rest of the page in black. Full-color is like a photograph or cartoon, where all colors blend and touch. In order to qualify for "Simple Spot Color" pricing, the registration between the two colors of ink **MUST** be loose. For example, the two colors must not be overlapping, touching, or even close to touching. Any graphics, photos or illustrations must be printed in either black or the highlight color, not both. **Three or more colors of ink, yellow ink, tight registration, full-bleed documents (ink to the edge of the paper), full ink coverage, or glossy papers must be done on the full-color press and are priced at the full color prices.**

Typesetting & Graphic Design

Whether you need a completely original piece designed, a piece revamped & updated, or a black & white to full-color conversion, our creative department can take care of your needs. If you know exactly what you want, that's great! Just "draw us a picture" and send it in. We can also closely duplicate an existing piece if you need an editable version for personalization (MS Word format). If you don't have a clue what you want, that's ok too! Just give us the text you want used and we will work our magic.

We send proofs for your approval, either by email (best), or mail. Make sure you look your proofs over carefully before you approve them. We want you to be happy with the finished piece, and fully expect that there may be a few small revisions to a design to polish it up, make corrections or tweak placements. This is not a problem and we are happy to do so. Once proofs have been approved by you, the job is sent on to the printing department if printing was ordered. If you are not ordering printing of your job, we will then email you a high-resolution .pdf file and/or send several laser-printed hard copies in the mail. If it's a full-color design, we'll send a .pdf only. Hard copies are worthless for reproduction.

There is no extra charge for typesetting your name & address onto your envelopes or postcard, or for small changes like adding an ID code to your order form with your printing purchase. If you are not purchasing printing, there is a \$10 charge for this service. This price includes emailing a .pdf file or mailing you hard copies of the job.

All typesetting/Graphic Design jobs must be paid in full before work is started.

We have had several people inquire about peel & stick envelopes. Unfortunately, we have been unable to locate a reliable source for self-adhesive (peel & stick) envelopes at a reasonable price. Therefore, we do not currently offer them. We understand that sealing a large number of envelopes can be tiresome. We recommend purchasing an envelope moistener (a plastic bottle with a sponge at the end.) You can find them at any office supply store for about a dollar.

Optional Addressing: If you would like us to address your outside envelopes, just have your mailing list broker email your list to us at: aceinfoco@aol.com We will print your list on peel & stick labels and apply them to your envelope for \$60 per 1,000. If you supply the list already printed on peel & stick labels, then it is \$50 per 1,000 for us to apply them for you.

MAILINGS

Yes! We can print and mail your advertising campaign. There are so many variables to a mailing that it's necessary for us to give a personal price quote for each job. You can give us a call or email for a price quote. We will need to know what it is that you want mailed: postcards? flyers? color? envelopes? How many pieces do you want mailed? What kind of postage do you want used?

Please note that we do not offer mailing lists. You will need to contact a list broker and have your list emailed to us.

Shipping Prices:

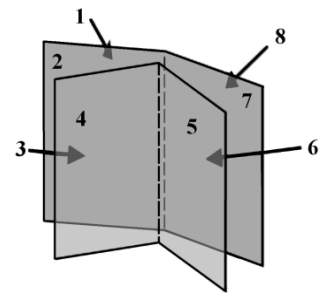

The shipping is a flat \$15.00 or 15% of the order total, whichever is higher.

Full-color orders are shipped for free.

BOOKLETS & CATALOGS

Our booklets are constructed by printing four pages on each sheet of paper. The pages are then collated together, folded in half, saddle stitched (two staples in the crease), and trimmed even for a sharp, uniform edge. Since each sheet of a booklet is four pages, all booklets must have page counts in multiples of four. For example, five sheets of 8½ X 11 paper is needed to create a 20 page 5½ X 8½ booklet. The cover and any blank pages are counted when determining the page count. The maximum page count for our Economy booklets is 80 pages.

The base Booklet prices include; lay-up, printing on 20 lb. white paper with black ink, collating, folding, stitching and trimming.

8 page booklet from two folded sheets

Economy Booklets

The entire booklet is printed on 20 lb. White Paper with Black Ink, including the cover.
